DETAILED ACTION

Response to Amendment

1. The amendment filed 6/28/04 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows:

The applicants filed an amendment, which exclude laundry and dishwashing.

This negative limitation is not supported by the original disclosure.

The amendment also requires the rinse solution and the wash solution, which are different from the pre-rinse solution. This limitation is not supported by the original disclosure.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 21-27 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to

Art Unit: 1746

one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The applicants filed an amendment, which exclude laundry and dishwashing.

This negative limitation is not supported by the original disclosure.

The amendment also requires the rinse solution and the wash solution, which are different from the pre-rinse solution. This limitation is not supported by the original disclosure.

Claim Rejections - 35 USC § 103

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

5. Claims 21-27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Chun et al (US Patent No. 5,133,892) in view of Hemm et al (US Patent No 6,180,578), Haley et al (US Patent NO 5,575,864) and Haley et al (US Patent No 5,837,065).

Chun et al. teach a detergent for use in dishwashing. In reference to claims 21-23, refer to col. 7, lines 5-20, col. 9, lines 55-65. In reference to claim 24, Chun et al. teach 1000ppm of the anionic polymer (col. 8, lines 5-10). In reference to claims 25-26 refer to col. 8, lines 1-7. In reference to claim 27 see col.19, lines 6-18.

The newly amended claims exclude dishwashing.

Art Unit: 1746

However, Hemm et al and Haley et al teach that it was conventional to use the same cleaning agents for dishwashing, laundry and hard surface cleaning. See at least column 1, line 61 – column 2, line 17 of Hemm et al; column 2, lines 45-61 of Haley et al '065; and column 2, lines 51-67 of Haley et al '864.

It would have been obvious to an ordinary artisan at the time the invention was made to use the compositions of Chun et al for hard surface cleaning with reasonable expectation of adequate results because Hemm et al and Haley et al teach that it was conventional to use the same cleaning agents for dishwashing and hard surface cleaning.

It would also have been obvious to an ordinary artisan at the time the invention was made that any cleaning with a cleaning agent comprises at least one step of rinsing off the cleaning agent.

Response to Arguments

6. Applicant's arguments with respect to claims 21-27 have been considered but are moot in view of the new ground(s) of rejection.

7. Applicant's arguments filed 6/28/04 have been fully considered but they are not persuasive. The applicants argue that the amendment filed on 6/28/04 does not introduced new matter. This is not persuasive because the newly introduced negative limitation is not supported by the original disclosure.

Art Unit: 1746

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
